

datango and Telvent Global Services partner to ensure user adoption of enterprise applications in Spanish market

Partnership combines Telvent's market presence, expertise and services with datango software for Spanish organizations seeking to drive greater ROI from business applications

Berlin, Germany & Madrid, Spain, December 17, 2009: datango AG, the leading independent provider of software that accelerates time-to-value and increases user acceptance of mission-critical systems, today announced that it had forged a strategic partnership with Telvent Global Services, a Spanish Consulting and IT Services Company, dedicated to the promotion of new Technologies and ideas.

Stephen Walsh, Executive Vice President Business Development of datango comments, "Telvent Global Services is one of the leading companies specialized in systems integration, IT outsourcing, and consulting services in Spain. As we continue our global expansion it is crucial that we align ourselves with the most respected complementary services partners in each region so that we ensure the success of our clients in those areas. In Telvent we have not only established a reseller relationship with a rapidly growing Spanish organization, but also joined forces with a company that shares our straightforward, results-oriented, philosophy. As a result, I'm excited and confident that this partnership will provide tremendous value for our joint clients in the future."

About datango:

datango AG, founded in 1999 and headquartered in Berlin with offices in Europe and the Americas, provides software solutions that accelerate time-to-value and mitigate the risk of end user failure for mission-critical enterprise applications. Profitable since 2004 and with the support of Hasso Plattner Ventures and EXTOREL since 2006, datango took over the "Knowledge and Performance Solutions" business unit of the Swedish company Enlight AB in 2007. datango now has more than 750 clients, millions of users and successful partnerships with leading system integration and enterprise software companies globally.
